### Washington LEA Academic and Student Well-being Recovery Plan

#### **Part I: LEA Information**

Please enter your LEA: Royal School District

Please enter the name of the point of contact for this survey: Linda Achondo

Please enter point of contact email address: lachondo@royalsd.org OSPI will use this email for questions regarding the contents of this survey.

Please enter the grade levels served by your LEA: PK-12

# **Part II: Attestations and Public Posting**

**1.** Royal School District (LEA name) attests that the School Board approved this plan after allowing for public comment.

Please enter the date this plan was approved: May 24, 2021

**2.** Royal School District (LEA name) attests that an equity analysis tool was used in the development of this plan.

Please provide the name of the equity analysis tool used: PSESD Racial Equity Tool

Please provide a link to the equity analysis tool used: https://resources.finalsite.net/images/v1533747720/psesdorg/awqpcid1l6cgytocuiix/PSESD\_ RET\_Worksheet.pdf

**3.** Plans must be posted on each LEA's website after School Board approval. Please enter the date this plan was posted on your LEA website:

Please provide a link to the posted accessible (i.e., disability and language access) LEA plan:

### **Part III: Universal Supports for All Students**

LEA-wide universal supports are supports available to all students in an LEA or to all students in select grade level(s) of an LEA.

4.	What LEA-wide universal supports are currently being provided or will be provided in the future to address gaps in student learning and well-being? (Select all that apply)

$\boxtimes$	Student Voice and Perception
$\boxtimes$	Transition Supports (Pre-K-Elem; Elem- MS; MS-HS; HS-post-
	secondary/career/beyond)
	Other

# **Part IV: Diagnostic Assessments**

Diagnostic assessment is a particular type of formative assessment intended to help educators identify students' specific knowledge, skills, and understanding in order to build on each student's strengths and specific needs. Because of their domain specificity and design, diagnostic assessments can guide curriculum planning in more specific ways than most summative assessments.

**5.** Please select the **academic** diagnostic assessments predominantly used in each grade level in your LEA to monitor, assess, and target supports for student learning. The list below is not exhaustive and contains places to include diagnostics not listed.

# **Part VII: Monitoring Student Progress**

**13.** Describe how your LEA will consistently apply the selected equity analysis and diagnostic assessments to evaluate and monitor student progress and effectiveness of the strategies/interventions implemented to address gaps in student learning and wellbeing.

# For example:

"Our district uses an equity analysis process every three months to monitor progress, adjust strategies and identify student learning gaps."

Our district will use the equity analysis process once per quarter to monitor progress, adjust strategies and identify student learning gaps.

# Part VIII: Supports for Strategies/Interventions

**14.** Of the strategies/interventions your LEA has implemented or is planning to implement, identify **up to three** in which your LEA has the knowledge, skills, and capacity to mentor another LEA.

We have had students in school for in person learning since August 28th. K-2, 4<sup>th</sup> grade, and the majority of our marginalized students (students with disabilities, EL and students struggling with social emotional issues)came back full time in October. In November, third and fifth grades returned full time; in January we added additional students who were struggling in remote learning, in April we added all students in grades 7-12 five days per week. Under 5% of our students chose to remain in remote learning as of April 12. We believe this has had the most impact on mitigating learning loss for our students. We would be happy to help any district with planning for returning to learning.

**15.** Of the strategies/interventions your LEA has implemented or is planning to implement, please identify **up to three** strategies for which your LEA needs more support.

We could use support around utilizing our FastBridge assessment data quickly and effectively.
